VOL. XIX.] SATURDAY, APRIL 4, 1818. [No. 5192.

For the prevention and cure of
BILIOUS AND MALIGNANT FEVERS
is recommended
***HAHN's ANTI-BILIOUS PILLS.***

THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings in several parts of the West Indies and in the Southern and Middle States, &c.

The testimony of a number of persons can be adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy founded on mere assertion.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience for believing that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of those diseases their use will very generally succeed in restoring health and frequently in cases esteemed desperate and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age.

They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetite—to produce a free perspiration and thereby prevent colds which are often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance: they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficatious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

The Elixir is perfectly agreeable, and the dose so small that no difficulty arises in taking it.

**Fan-sash Making.**

METAL FAN-SASHES, of various descriptions, will be made by the subscriber, at his shop, lower end of Duke street. The want of a Metal Fan-Sash Manufactory in Alexandria, has hitherto been severely felt by builders and others, who have been compelled to make use of wood, which is neither elegant nor durable. The various forms into which the metal can be shaped have given it a decided superiority, and the difference in the price is very trifling. The subscriber has been at considerable expence in procuring the necessary preparations, and relies on public enterprise for success in the undertaking.

Gentlemen in the country, by sending the dimensions of their sashes, can have them made at the same price as if in town.

***Universal History Americanised;***

Or, an historical view of
*Europe, Asia, Africa and America,*
from the earliest records to the nineteenth century—with a particular reference to the state of society, literature, religion, and form of government in the United States of America.

BY DAVID RAMSAY, M. D.

"Life is so short and time so valuable, that it were happy for us if all great works were reduced to their quintessence." *Sir William Jones.*

—

*PROSPECTUS.*

ASIA.

The Asiatic part of this work contains a general view of the antediluvians—of the general deluge—of the re-settlement of the Globe after that great event—of the primitive postdiluvian nations, which were formed in Asia, the cradle of the world. Their various ramifications, revolutions, and of the general course of Empire.

AFRICA.

The African part, contains a concise history of Egypt, Carthage, Numidia, Mauritania, Abyssinia, of the Piratical States, and the Hottentots, with a grouped view of its uncivilized settlements.

EUROPE.

The European part, contains the history of Greece and Rome, from their origin to their dissolution—of the various nations which were conquered by them—and of the nations by which the Romans themselves were finally conquered, and of the nations which were formed from the fragments of the Roman Empire, and the various revolutions of the latter, together with a view of the nations which never were subjected to the Romans.

AMERICA.

The American part, contains a general history of the Western continent, under the heads of Free, European, and Aboriginal or unconquered America. The first contains a history of the United States, from their first settlement as English Colonies, till the present time.—The second, of all parts dependant on Europe.—And the third, of all that are still owned by the Aborigines.

It is expected that the whole will be comprised in 10 or 12 octavo volumes, of between four and five hundred pages each—to be printed in Philadelphia, on good paper and fair types, for $3 1-3 per volume, in sheep binding, or $4 1-3 Calf Gilt, to be paid for on delivery.

AUTHORITIES.

This work has been in contemplation upwards of 40 years. The project of it was conceived in 1786, on reading the Universal History, then recently edited in 60 volumes, by a society of gentlemen in England. The original idea of extracting the quintessence of that voluminous work, which contained the most complete system of history the world had then seen, has ever since been enlarging, and improving by an attentive perusal of the histories written by Robertson, Hume, Gibbon, and other modern authors—of the Asiatic researches—of the works of Sir William Jones, and other learned Orientalists—the publications of intelligent travellers, who, in the course of the last half century have explored almost every region of the Globe. These collectively have thrown a blaze of light on countries comparatively unknown, and on portions, both of ancient and modern history which were confused and obscure at the period when the writers of the Universal History published their work. The arrangement of materials collected from these sources commenced in the year 1780, when, in consequence of the surrender of Charleston to Sir Henry Clinton, the author was suddenly released from a sea of business and sent as a prisoner of war to the British Garrison then in St. Augustine, and there confined for eleven months, without any peculiar employment. Steady progress has been made for the last ten years in correcting and transcribing the work for publication.

UNITED STATES.

The History of the United States is given at full length—that of foreign countries is more or less expended or contracted in proportion to the intrinsic importance of each—its tendency to illustrate portions of Holy Writ—the Greek and Latin Classics—and also in proportion to its connexion with the U. States, or as furnishing useful practical information to its citizens, or as the paternal soil of their ancestors.

The above sketch of the nature and objects of this immense work, which has occupied the attention of the Author for upwards of 40 years, was found among his papers, and is now given to the public in his own words. Since that period, a few chapters have been added by the Reverend SAMUEL STANHOPE SMITH, which brings it down to the close of the last war.

The publication commences with a third impression of the History of the U. States, in three volumes, which is all that has ever appeared. The whole will not be delivered under 15 or 20 months. It is proper to state, that the gentlemen who have the direction of it are neither booksellers nor printers, and receive no pecuniary consideration for their trouble—but are willing to make the necessary advances to carry it into execution provided the sale is warranted by public patronage. The profits arising are to be appropriated for the support and education of his children, four of each sex; to them its success is a matter of deep importance.

## SELECTIONS

FROM LONDON PAPERS RECEIVED AT N. YORK.

### *British Institution.*

The gallery of this institution was opened on Saturday for the inspection of the subscribers, as is usual previously to the exhibition of the works of art which it contains. We feel pleasure in stating our favorable impression of the present collection, which affords additional proof, if any were needed, both of the benefit derived from the mode of encouragement and the general progress and perfection of the artists of this country. The remark must of course be taken with some qualification, for it is obvious that many paintings of inferior merit will find their way into an exhibition of this kind. In the higher department of the arts, one of the finest pieces is the first number in the catalogue, the Angel Uriel, by Alston:—this is a gigantic figure reposing, and contains much mind in its concentrated expression of power and benignity. It was purchased by the directors of the institution, we are informed, immediately on being presented to their notice.

### *Monument of Charles Fox.*

This monument from the masterly chisel of Westmacot, which is to be erected in Westminster Abbey, to the memory of the late Right Hon. Charles James Fox, is nearly completed. It consists of two beautiful female figures lamenting over the departed statesman, and a negro slave sitting on the steps of the pedestal, with his eyes raised in gratitude to Mr. Fox, for the distinguished part he took in the abolition of the disgraceful Slave Trade. We are glad that a circumstance unconnected with politics, and in the admiration of which all classes and ages must join, has been chosen from the history of Mr. Fox's life to be his memorial with posterity.

### *Statue of William Pitt.*

A fine statue of the late Right Hon Wm. Pitt, will shortly be placed in the Bank of England. The figure is cut by an eminent sculptor, in a sitting posture, and the likeness and character are singularly striking. This mark of respect to the memory of that distinguished statesman has been paid for by private subscription.

### *Servitude Abolished.*

The legislative body of Frankfort pronounced on the 10th inst by acclamation, the abolition of the servitude of the inhabitants belonging to the territory, as well as of all the services resulting from it.

### *Young Napoleon.*

Letters from Vienna mention than an Imperial Ordinance will shortly appear, conferring upon the son of the Ex-Empress Maria Louisa, the title of Highness and the name of the Duke of Modlin. It is added, he will be assigned the first rank after the Princesses of the Imperial Family.

### *German Contingent.*

The proposed basis for the military contingent of Germany, which subject was taken into consideration by the diet on the 19th instant, requires a levy of 2 per cent. on the population of that great country—we presume the male part of it is here alluded to. The gross population of Germany is about 30,000,000, of which 6,000,000 will be nearly the number of males capable of bearing arms. Two in every hundred of these would constitute an army of 120,000 men, the exact amount of force which it was stated the Army of Confederation was designed to muster.

### *Credit-able Living.*

An officer of a disbanded regiment applying to the paymaster of the forces for his arrears, told him, he was in the most extreme want. The treasurer seeing him of a jovial and ruddy aspect, told him that his countenance belied his complaint. "For heaven's sake, my lord, (said the officer) do not mistake; the visage that you see is not mine, but my landlady's; she has fed me upon credit above these twelve months."

GENERAL GAINES

Is said to have passed eight days and nights in the wilderness without food, previous to his late arrival at Fort Scott.

PERPETUAL MOTION—STILL.

On the 20th ult. the editors of the N. York Gazette published that they were eager to announce to the world the discovery of perpetual motion; that they had witnessed an explanation of the discovery, and felt confident of its reality. On the 28th, they say, "It is with extreme mortification we have to announce for our friend, (who never before failed in any of his projects) his abandonment of his project of producing perpetual motion. [*Franklin Gazette.*

COMMERCIALLY IMPORTANT.

Copy of a letter to a respectable mercantile house in Philadelphia, dated

*Liverpool, Feb.* 12, 818

During the last week there was a good demand for most descriptions of cotton, the sales being about 11,140 packages—say for uplands, ordinary to prime, 18¼d to 21¼d; Orleans fair to good 22 a 23½; and sea islands middling to very fine 2s 5d a 3s including 30 bags St. Simons 3s 3d: so that uplands have improved about 1-4d per lb. and sea islands nearly 1d. By reference to statement annexed to our Circular of 15th ult. you will find our stock of tobacco on hand the 1st instant, 5714 hhds—consisting of

| | |
|---|---|
| Virginia leaf | 4200 |
| Stemmed | 950 |
| Other sorts | 564 |
| | 5704 |

So that it is a good deal increased, but at the same time the stock in London continues very moderate, being only on the 7th inst. of all kinds 5746 hhds and 274 packages. Latterly we have experienced a very regular demand for this article, both for home trade and exportation, and considerable parcels have been taken on speculation. Accordingly prices have advanced—say in the middling and inferior description of leaf, about 1-2d per lb. The better qualities are much less influenced by the demand, and strips, of which the late arrivals have been disproportionable, remain without any material alteration. Under the consideration that the import of the old crop has nearly ceased, and that there is a prospect of a continuation of a regular demand, this article is likely to maintain present currency, and should the export increase, may advance a little.

The demand for wheat is rather better but no advance in price, & in American flour there is scarcely any thing doing. New-York has been offered by auction in bond, but taken in at 56s per bbl. The aggregate average price for the week ending 31st ult. being the fourth which regulates the import of the ensuing quarter, is 85s 3d; and there are for admission to home use on the opening of the ports, in London, 9716 quar. wheat, and 200 sacks flour; and here, 2141 quar. wheat, and 15,428 bbls. flour.

HAYES & STORY.

*From the Charleston C. Gaz. March* 28.

FROM THE SPANISH MAIN.

We yesterday received from our attentive correspondents at Kingston, by the arrival of the British brig Atalanta, from Morant Bay, files of the Kingston Chronicle and Jamaica Courant to the 30 instant inclusive. They afford considerable interesting intelligence relative to the military operations going on between the armies of the Independents and Royalists in South America. Among these extracts will be perceived a Curacoa article of the 14th January, which states, on the authority of letters from La Guayra, that 18,000 Russian troops had arrived at Cadiz, and were to embark immediately to take possession of the Floridas! "Come on Macduff."

Another Curracoa paper states that lord Cochrane had arrived at St Bartholomews in a frigate, having three transports in company, on board of which were 1000 men; and that this squadron had subsequently sailed for Guayana. This report we think doubtful.

FROM HAVANA.

A report reached us yesterday by the Adrianna, captain Tate, that the port of Havana was shortly to be closed to all foreign vessels, by order of the king;—but we have not learnt on what ground this measure was predicated. Our correspondent, (a mercantile gentleman of intelligence and veracity) of date the 16th instant, makes no mention of such a circumstance, and we therefore think it very questionable. [*Ibid.*

From Jamaica papers received at the office of the Charleston City Gazette.

*Kingston, (Jam.) Feb* 17.

We have been favored with Carthagena Gazettes to the 7th instant, from which we have translated the following articles:

*February* 7.

Letters from a creditable person in Lima make known the following:

An Anglo-American ship, laden with arms, provisions, money and artillery, entered the port of Talcagnano, in Chili, supposing it to be occupied by the Insurgents: the king's governor there, who is an excellent officer, took possession of all this cargo, with which he has been able to supply and increase the force of the place; making this prize from the enemy without shedding a drop of blood.

Almost at the same time the vessels of war which were cruising on that coast, by order of the vice-roy, captured in the vicinity of Valparaiso, and conducted to the port of Callao, another American ship, laden with merchandize, arms and artillery, to aid the Insurgents in that kingdom.

Near Paxta, the naval officer, Don Joseph Villegas, with the vessel under his command, has captured a third ship, which he has sent also to Callao, which he met with committing piracies in the neighborhood of Guayaquil. Villegas was about to hang the captain of this vessel, but spared his life upon his offering to put into his hands a companion of his, who was committing robberies between Panama and Guayaquil.

Note.—These vessels are all those that were armed in Baltimore and Charleston by the rebels Correa; and so it appears three of them have already fallen into our hands.

*February* 23.

His majesty's brig Tyrian, capt. Popham, quitted Port Royal on Saturday morning for Porto Bello, with three vessels under her protection.

The government cutter Superior, capt. Todd, from St Vincents, Grenada, Porto Cabello, last Curracoa, in 3 days, with despatches from Sir Charles Brisbane, governor of St. Vincents, addressed to his grace the duke of Manchester, came to anchor at Port Royal late on Saturday afternoon. At Porto Cabello the Superior's officers learnt that the Royalists had suffered a signal defeat from the Independents under general Morillo, who was within a few days' march of Caracas. On the 14th instant a despatch was received by the commandant at Porto Cabello from Caracas, which was supposed to give an account of the above disaster, as nothing was allowed to transpire—Much dissatisfaction is said to exist among the Spanish soldiery. Some of Brion's squadron had recently made many valuable captures.

We have received Curracoa Gazettes to the 14th instant, from which we have copied the articles under that head in this publication.

*Extract of a letter from Trinidad, dated the 12th instant.*

We are at this moment blockaded by a Royalist brig, schooner, and a number of flecheras, lying at anchor outside the shipping, and who capture every vessel coming from an Independent port; in consequence of which our trade suffers much, having no man of war on the station, and the governor will not interfere. The Royalists have possession of Guiria, and the Independents still retain Augustura.

About 300 officers and volunteers arrived here lately from England to join the Independents; of that number 100 went to Augustura—as many more returned home quite disgusted with the cause; 30 or 40 died of the terrible fever which lately prevailed here; and the remainder are wandering about in great distress, regretting the day they allowed themselves to be so completely duped by the agents of the Independents in England.

*Curracoa, Feb* 21

By the schooner Catharina, from Anguila, a report has reached this island of the arrival of lord Cochrane at St. Bartholomews, with a frigate and 3 transports, having on board, as is said, 1000 men. His lordship is further stated to have sailed from thence, but his destination was not known.

Private letters from Caracas corroborate the above report, and state that it is supposed his lordship was bound to Guayana, and that he will soon have to repent of his chimerical undertaking.

*From the Caracas Gazette, Jan.* 28.

Official despatch from his excellency general in chief of the Expeditionary Army to the capt. general ad interim.

Lieut. col. Don Rafeal Lepez writes me the following from Espino, under date of the 7th instant:

"*Most excellent sir,*—Yesterday afternoon I arrived in this town; which, in consequence of reports made current by the enemy, that wherever I came I assassinated all hands without distinction of sex, I found deserted by its inhabitants. On my arrival my first object was to tranquilize the three or four persons whom I met there, and to convince them that my intentions were only to promote the welfare of the good subjects of the king. I ordered them to the fields, in order that they should acquaint the families which were concealed there with the good treatment they had received from his majesty's troops. This measure has had so favorable a result, that the town was this morning crowded with families, and a number of young men, who presented themselves to be enlisted in the army of the king. I do not entertain the least doubt but the chief part of the inhabitants of this town are addicted to our sovereign, and that they pant for the moment of being set free from the yoke of the rebel Rondon."

I transmit this to your excellency for your information, and for the satisfaction of all the loyal inhabitants of the country.

God preserve your excellency many years.

Head Quarters, Victoria, 17th January, 1818.

PABLO MORILLO.

Don Juan Bautista Pardo

The following whimsical burlesque upon the grave details which abound, in European newspapers and magazines, of the amusements of fashionable life, may be relished by some of the lovers of what is called LIGHT READING.

SPLENDID FETE AT BALLYGROOGAGH.

*From the Belfast Commercial Chronicle.*

Ballygroogah House, the hospitable mansion of Timothy O'Mullaghan, Esq. was last month graced by the most elegant festivities, on the happy return of their oldest son from the north of Europe, where he had been *incognito* in the humble guise of a cook to a whaler.

The principal entrance to the house was most handsomely ornamented for the occasion; on one side was seen a heap of manure, shaped like an ancient tumulus, and tastefully decorated with aughing straws, &c. on the other side appeared a stagnant pool, whose smooth surface was gently moved by a duck and drake, who muddled through with uncommon vivacity and spirit; in perspective was seen a venerable turf kish, around which a pair of trowsers being carelessly thrown, gave a light and graceful finish to the scene.

About two o'clock, the approach of company was proclaimed by the distant clatter of wheel cars; this deep sound mingled with the finer tones of cur dogs barking, whipped children crying, &c. produced a full and mellow volume of the most delightful harmony. The first arrival was that of the Dowager Mrs Fluggins, an eminent *accoucheur*; she was soon followed by the rest of the expected company, who speedily repaired to a grand rustick saloon, the walls of which were painted *a la soot drop*

Here a rich and finely flavored beverage was handed round in noble wooden vases, which the charming hostess, with bewitching simplicity denominated *broth* in *noggens*. Dinner was shortly afterwards served up; a *plantean* was dispensed with, but its place was most substantially supplied by a fine skate, cooked in the Turkish fashion, with all its tails; near it was a quarter of delicate veal, which had breathed its last sigh after an existence of five hours. On a central shed was placed a male bird, which, during a life of nine years, had increased to such a size as to excite the admiration of the whole company. After dinner, some original sentiments and well selected songs were given, a few of which are the following:

Mr. O'Mullaghan—"A speedy rise to the price of pigs."

Song—The night that I put the pig under the pot.

Mr. O'Loghlin—"A merry go round to the fost* organ."

Song—The weary pound of tow.

Mr. M'Dade—"The weaver's harpsichord."†

Song—A weaver boy shall be my dear.

When the pleasures of the festive board were concluded, preparations were made for dancing. The orchestra, a unique of the most simple beauty, was an inverted creel, on which a simple minstrel sat, the interest of whose appearance was much heightened by the loss of his left eye. Mr. Patrick O'Mullaghan, disliking the monotony of the waltz, and the vagaries of a quadrille, opened the ball, by dancing a jig with Miss Juda Fluggins: they were soon followed by Master Charley M'Dade, who floated into a reel with Miss Nancy Fluggins.—Dancing was kept until a late hour, when the elegant revellers parted with mutual regret. We subjoin a description of some of the most admired dresses worn on the occasion, which from the striking costume, will doubtless be the standard for fashionable imitation.

*Ladies' Dresses.*—Mrs. O'Mullaghan, a loose bedgown robe of linsywoolsy, petticoat to match; two and six-penny shawl thrown with graceful negligence over the shoulders; pincushion and scissars suspended from the right side by red tape, head dress, dowd and skull cap.

Miss O'Mullaghan—Round gown of striped calico, habit shirt embroidered *en gobble-stitch*.—Head dress, bandelettes of six penny riband.

Miss Nancy O'Mullaghan—A superb old cotton gown, dyed blue for the occasion. Head dress, crooked horn comb, and splendid brass bodkin

Dowager Mrs. Fluggins—Body and train of snuff colored stuff, petticoat of deep crimson; the brilliancy of this beautiful dress was increased by a pair of large ticken pockets, worn outside of the petticoat. Head dress, a most valuable antique straw bonnet.

Miss Fluggins—A light drapery of plain yellow linen over a sprigged cotton gown petticoat gracefully sprinkled with pure colored spots—Head dress, lavelv teen band, with a mother of pearl *button* in front; black worsted stockings, *a la Caraboo.*

*Gentlemens' Dresses*—Mr. O'Mullaghan—A waistcoat of white drugget, deep blue inexpressibles—wig unpowdered.

Mr. Patrick O'Mullaghan—Jacket and trowsers of blue frize—cravat, a blue and white handkerchief.

Mr. Gully—A brown jacket, handsomely patched at the elbow with gray cloth—waistcoat chequer. This gentleman's declining to wear shoes, gave a peculiar cool and easy freedom to his fine figure.

* A spinning wheel. † A loom.

Ordered, That whenever any order passes the Common Council directing the superintendent of police or street commissioner to perform any duty or duties, they shall proceed to execute the order first passed by the Common Council, and in regular rotation, unless imperious circumstances (to be judged of by the Council) shall prevent them.

An act authorising the mayor to grant licenses to retail beer, ale, porter and cider, was read three times and passed.

Ordered, That the mayor be authorised to deduct the sum of five dollars from the license which he may grant to persons who have been fined and have paid the same for retailing ale, beer, porter and cider.

## Land for Sale

THE Subscriber offers for sale, about 2000 acres of land in Fairfax county, not more than from seven to nine miles from Alexandria. The property is well watered, has a sufficiency of wood, and (judging from the condition of small and well cultivated farms that adjoin it,) it is highly susceptible of improvement—It is at present divided into tenements, of from one to two hundred acres each provided with a dwelling house, out houses, a garden and orchard; and might, of course, be laid off into four or five very compact farms The principal object of the subscriber, being the introduction of a good system of husbandry into his neighbourhood, he will sell on very moderate terms, give a long credit on the *whole* amount of the purchase money, and require no other interest, than what the present rent of the land pays, being about 3 per cent. on its estimated value.

## French Creek Boarding School.

*The following is published for the information of Parents:*

HAVING long believed that a School on a plan different from most others in many respects, would be beneficial to society, and apprehending that with all its cares, and the responsibility inseparable from such a concern, I could more cheerfully devote my time to the education of children than to any other business, I have concluded to establish a BOARDING SCHOOL for GIRLS—With this view I have purchased the FRENCH CREEK FARM, four miles east of the yellow springs, on the Norristown and Philadelphia road, situated in Pikeland and Vincent townships, Chester county, twenty-seven miles from Philadelphia, combining many conveniencies for the support of such an institution; and having let the farm, etc. in a way calculated to supply the family with provisions, I propose to devote my attention, with the aid of suitable assistants, to the education of the children who may be placed under my care.

In selecting the pupils, it is not proposed to be governed entirely by their ages, nor to require that they shall all be members of the religious society of Friends; but as the school rules will be very few in number and very simple, it is my wish that none may be sent contrary to their own inclination, nor any one who would not be likely to be good examples to the other scholars, and treat them with kindness and affection.

The price for board and tuition will be two hundred Dollars per annum, one quarter always to be paid in advance—no restrictions respecting the kind of clothing are intended, nor respecting the frequency of the changes that parents may require; the washing will be charged at the ordinary price per dozen—children may be admitted for one quarter only, and such as are entered for a longer period, may nevertheless be removed at the expiration of any quarter.—The communication with Philadelphia will be frequent and easy by stage, and a house of entertainment kept by the farmer for the accommodation of persons having business at the school.

Reading, Writing, Arithmetic, English Grammar, Geography and the use of Maps and globes, will be taught, together with such other branches as the progress of the children and experience may render expedient. The school to open the first of the 5th month next. For further information apply to Edward Stabler, Alexandria, or to

I will give the above reward, if secured in any jail, so that I get him again, and will pay all reasonable charges if brought home. ## Thirty Dollars Reward.

Ben was last year hired to Mr. Charles Scott, of Alexandria, (who kept the livery stable) to which place it is presumed he may have gone, with an intention of getting on the northward. I will give for his apprehension on this side of the Potomac 20 dollars, or 30 dolls. should he be taken on the north of the same, and secured in jail so that I get him again.

L. Thompson, agent, joint proprietor," &c. and should any be offered for sale without said label on them the purchaser may be apprised that they are counterfeit.

## James Kennedy & Son,

RESPECTFULLY inform the public that they have just received from *LEE'S MEDICINE STORE,* No. 46, Maiden lane, New-York a fresh supply of the following valuable MEDICINES:

*Hamilton's Worm destroying Lozenges,*

Which have within sixteen years past cured an immense number of persons of both sexes of every age and in every situation, of various dangerous complaints arising from WORMS, and from obstructions or foulness in the stomach and bowels.

This medicine bears no analogy whatever to others of similar titles so commonly complained of as operating with violence; on the contrary a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent & is so mild in its operation that it cannot injure the most delicate pregnant lady or the tenderest infant of a week old should no worms exist in the body; but will without pain or griping cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humours and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.

*Description of Worms, and the symptoms by which they are known.*

Worms which infest the human body are chiefly of four kinds viz.—The Teres or large round worm; the Ascarides or small maw-worm; the Cucurbitine or short flat white worm; and lastly, the Tænia or tape-worm, so called from its resemblance to tape. This is often many yards long and is full of joints. It is most hurtful and most difficult to remove.

Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsions, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food and sometimes voracious; purging with slimy and fœtid stools; vomiting; large and hard belly; pains and sickness at the stomach; pains in the head and thighs and lowness of spirits; slow fever with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success in all complaints similar to those above described.

A dose of this medicine given occasionally during the warm season, will effectually prevent "the vomiting and purging of children"—a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

*The Restorative Powder for the Teeth and Gums.*

For the prevention and cure of BILIOUS AND MALIGNANT FEVERS is recommended

*HAHN'S ANTI-BILIOUS PILLS*

THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings in several parts of the West Indies and in the Southern and Middle States, &c.

The testimony of a number of persons can be adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy founded on mere assertion.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience for believing that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of those diseases their use will very generally succeed in restoring health, and frequently in cases esteemed desperate and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age.

They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetite—to produce a free perspiration and thereby prevent colds which are often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance: they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

*Hamilton's Elixir,*

A sovereign remedy for colds, obstinate coughs asthmas, sore throats, catarrhs, and approaching consumptions.—To parents who have children afflicted with the *HOOPING COUGH*, this discovery is of the first magnitude, as it affords immediate relief, checks the progress, and in a short time entirely removes the most cruel disorders to which children are liable. The Elixir is perfectly agreeable, and the dose so small that no difficulty arises in taking it.

*Hamilton's Grand Restorative,*

Is recommended as an invaluable medicine for the speedy relief and permanent cure of

| | |
|---|---|
| Nervous Disorders | Violent cramps in |
| Consumptions | the stomach and |
| Lowness of spirits | back |
| Loss of appetite | Indigestion |
| Impurity of b'ood | Melancholy |
| Hysteric'l affection | Gout in the stomach |
| Inward weaknesses | Pains in the limbs |
| and debility | Relaxations, etc. |

*Hamilton's Essence and Extract of Mustard.*

A safe and effectual remedy for acute and chronic rheumatism, gout, rheumatic gout, palsy, lumbago, numbness, white swellings, chilblains, sprains, bruises, pain in the face and neck, etc. etc.

*Lee's Ointment for the Itch.*

Warranted an infallible remedy at one application, may be used with perfect safety by pregnant women, or on infants a week old, not containing a particle of mercury or any dangerous ingredient whatever, and not accompanied with that tormenting smart which attends the application of other remedies.

*Hahn's true & genuine German Corn Plaister.*

An infallible remedy for corns, speedily removing them root and branch, without giving any pain.

*The Genuine Persian Lotion,*

So celebrated among the fashionable throughout Europe, is an invaluable cosmetic, perfectly innocent and safe, free from corrosive and repellent minerals, the basis of other lotions, and of unparalleled efficacy in removing blemishes of the face and skin, freckles, pimples, inflamatory redness, scurfs, tetters, ringworms, sunburns, prickly heat, &c.

*Hahn's genuine Eye Water,*

A sovereign remedy for all diseases of the eyes, whether the effect of natural weakness or of accident.

*Tooth Ache Drops.*

The only remedy yet discovered which gives immediate and lasting relief in the most severe instances.

*Lee's Infallible Ague and Fever Drops*

For the cure of agues, remittent and intermittent fevers.
